The recent reenactment offered a look at various vehicles and tools used in combat.

The Michigan Military Technical and Historical Society's Vietnam Living History Experience took place Aug.14 and 15.

Reenactments and displays brought the Vietnam War era to life.

# Reenactors offer Vietnam living history experience

The Chesterfield Township Historical Village was transformed into "Firebase Chesterfield" for two days this August, as reenactors brought the Vietnam War era to life.

The Chesterfield Township Historical Society hosted the Michigan Military Technical and Historical Society's Vietnam Living History Experience event Aug. 14 and 15.

The event included reenactment battles, offering public demonstration of au-

thentic Cold War era combat, as well as encampment life and vehicle displays.

This year's event marked the second to take place at the Chesterfield Township Historical Village.

Funds raised from the event will benefit future historical society events and programming.
